As citizens of Fairfax County, we want to strenuously register our objections to the proposed modification of Dolley Madison Boulevard (Route 123). Whatever is perceived to be the traffic problems related to the area, we strongly urge that they be solved with improvements to the George Washington Parkway and/or the Turkey Run Farm Road entrance to the CIA and not with changes to Dolley Madison Blvd. This boulevard has a unique character which should not be disturbed. We would appreciate your support in helping to find creative solutions which will not affect Dolley Madison Boulevard.
